In the wake of the financial crisis of 2008, lenders face an increasingly complex web of state and federal regulations. Navigating these regulations along with general business laws requires a team of seasoned professionals. At Hershner Hunter, we have brought together attorneys from our labor, employee benefits, creditors' rights and our business and transactions groups to create a full service team focused on servicing financial institutions in Oregon and Washington.

Whether you're a credit union, a community bank, or a multi-billion dollar commercial lender, we have the assembled expertise financial institutions need.
